

Thursday 10 October

| | |
|-----------------|---|
| 09.00 - 09.20 h | Rogier van Rossem Welcoming speech |
| 09.20 - 09.40 h | Bryan Fry Working with venomous reptiles in a university environment |
| 09.45 - 10.05 h | Michael Richardson Reptile development and evolution |
| 10.10 - 10.30 h | Jory van Thiel From student to research assistant |
| 10.30 - 11.00 h | Pauze |
| 11.00 - 11.20 h | Joe Wasilewski Invasive species of Florida |
| 11.25 - 11.45 h | Sterrin Smalbrugge Engaging the youth: How to make our future generation care about reptiles and their conservation |
| 11.50 - 12.10 h | Colin Strine Star Serpents of Southeast Asia: A look into the life of snakes in rural Thailand |
| 12.10 - 13.15 h | Lunch |
| 13.15 - 13.35 h | Michael Starkey Save the Snakes |
| 13.40 - 14.00 h | Johan Marais Snakes and snakebite in South Africa |
| 14.05 - 14.25 h | Wolfgang Wuster Venom at the interface between snake and environment |
| 14.25 - 15.00 h | Mark O'Shea Blood, sweat and snakebites: the making of an herpetologist |
| 15.00 - 15.20 h | Break |
| 15.25 - 15.45 h | Matt Goode Ecology and conservation of King Cobra's in India and Southeast Asia |
| 15.50 - 16.10 h | Gowri Shankar Hannah and her sisters: The world's longest venomous snake is not alone anymore |
| 16.15 - 16.35 h | Tim van Wagensveld Lesser Antillean iguanas (<i>Iguana delicatissima</i>) on the move or not?: Home range utilisation, movement and nesting behaviour |
| 16.35 - 17.35 h | Snake Rescue Call Screening - World Premiere |
| 17.35 h | Closing remarks |

Friday 11 October

| Time | Auditorium | Kilimanjaro | Mount Kenia | Knoefzaal |
|-----------------|---|--|--|--|
| 09.00 - 09.15 h | Welcoming speech | | | |
| 09.15 - 09.50 h | Gowri Shankar Hannah and her sisters: The world's longest venomous snake is not one anymore: Integrated taxonomic revision of the King Cobra Ophiophagus Hannah | | | |
| 09.50 - 10.25 h | Colin Strine King cobra movement through a hostile land-scape- incorporating time, space, and trajectory into movement analyses | | | |
| 10.25 - 10.55 h | Break | | | |
| 10.55 - 11.30 h | Joe Wasilewski Eastern diamond back rattle snakes | | | |
| 11.30 - 12.15 h | Bryan Fry Coagulotoxic effects by Brown snake (Pseudonaja) and Taipan (Oxyuranus) venoms and the efficacy of a new antivenom | | | |
| 12.15 - 13.00 h | Lunchbreak | | | |
| 13.00 - 13.10 h | Short presentation Snake professional | | | |
| 13.10 - 13.35 h | Screening Minutes to Die | Tim van Wagensveld Lesser Antillean iguanas (Iguana delicatissima) on the move or not?: Home range utilisation, movement and nesting behaviour | Anthony Daly Crews Human dimensions in snake conservation | Colin Strine and Ben Marshall Workshop Dynamic brownian bridge movement models workshop part 1 |
| 13.35 - 14.00 h | | David Wojnowski Perspectives, attitudes and actions: An alternative orientation for snake conservation | Konrad Mebert Vipers of Anatolia and their IUCN Red Listing | |
| 14.10 - 14.35 h | | Roel Wouters Evolution and Development of Infrared Sensing Pits in Pitvipers: From Fundamental Science to Conservation | Kamal Devtoka Snake conservation in Rupandehi district Nepal | |
| 14.35 - 15.00 h | | | Nick Brandehoff A man on a mission | |
| 15.00 - 15.20 h | Break | | | |
| 15.20 - 16.05 h | Auction for conservation Video introduction Romulus Whitaker | | | |
| 16.05 - 16.40 h | Johan Marais A monograph of the genus Bitis | | | |
| 16.40 - 17.15 h | Wolfgang Wuster Venomous snakes as flagship species: Identifying likely candidates | | | |
| 17.15 - 17.50 h | Sylvain Ursenbacher European Viper | | | |

Saturday 12 October

| Time | Auditorium | Kilimanjaro | Mount Kenia | Knoefzaal |
|-----------------|---|---|---|--|
| 09.00 - 09.15 h | Welcoming speech | | | |
| 09.15 - 09.50 h | Joe Wasilewski Invasive species in Florida – a natural history KCC | | | |
| 09.50 - 10.25 h | Matt Goode Long term effects of urbanization on three sympatric rattle snake species in Arizona | | | |
| 10.25 - 10.55 h | Break | | | |
| 10.55 - 11.30 h | Mark O'Shea The secret life of the Papuan Taipan | | | |
| 11.30 - 12.05 h | Mahmood Sasa Protecting the snakes of Costa Rica: Can snakes become flagship species for conservation? | | | |
| 12.05 - 12.50 h | Lunchbreak | | | |
| 12.50 - 13.00 h | In memoriam Royjan Taylor | | | |
| 13.00 - 13.25 h | Mátyás Bittenbinder Coagulotoxic cobras: Clinical implications of anticoagulant actions of African spitting Naja venoms | Tessa van Haaren en Sefanne Hakken Herpetofauna foundation: An overview (past into the future) | Konrad Mebert The Atlantic Bushmaster (Lachesis muta rhombeata): from field work to results on movement and habitat of a flaship snake/ Manshang viper as a flagship species: Outlook of a viper in conservation need and anticapated field study | Colin Strine and Ben Marshall Workshop Dynamic brownian bridge movement models workshop part 2 |
| 13.25 - 13.50 h | Screening Snake Rescue Call - World Premiere | Choti Sing Save The Snakes - Bridging the gap between snake conservation and human-snake conflict mitigation | Ross Deacon Podcast popularity: The increasing world wide audience | |
| 13.50 - 14.15 h | | Sophie von Bernus Health Action International | Stephen Spear The IUCN Viper specialist group: Successes, challenges and opportunities for achieving conservation of viper species | |
| 14.15 - 14.40 h | | Jory van Thiel Secret of the Spitting Cobra: Eye-Irritation Potential of Spitting Cobra Venoms Using an in vivo Embryonic Chicken Model | | |
| 14.40 - 15.00 h | Break | | | |
| 15.00 - 15.45 h | Auction for conservation | | | |
| 15.45 - 16.20 h | Marc Maas Reptile veterinary medicine | | | |
| 16.20 - 16.55 h | Michael Richardson Snake genomics, evolution and development | | | |
| 16.55 - 17.20 h | Rogier van Rossem Safety management and proper husbandry of venomous snakes in captivity: In a changing political environment | | | |
| 17.20 - 17.30 h | Bushmaster conservation project-video presentation | | | |
| 17.30 - 17.40 h | Award ceremony | | | |
